

# Sprint 1

# Sprint 1 Report

**Product Name:** ChatCut

**Team Name:** ChatCut Devs

**Sprint Number:** 1 – Foundations

**Date:** 10/22/25

---

## 1. Actions to Stop Doing

**Q:** What things should we stop doing?

**A:**

- Team members not giving updates on whether they can attend meetings/class.
  - Meeting only online for Scrum meetings
- 

## 2. Actions to Start Doing

**Q:** What should we start doing to improve our development process?

**A:**

- Team members should come to meeting prepared to talk about what will be discussed in the meeting
  - The team should start dividing up work into tasks that are worked on async and reviewed in meetings
- 

## 3. Actions to Keep Doing

**Q:** What is working well that we should continue to do?

**A:**

- The team should continue to communicate about project research finding with the team and updates with product goals/focus
- 

## 4. Work Completed / Not Completed

### Work Completed

User Story ID	Description	Status	Story Points
US1.1	User can select start and end times on the timeline to define the clip portion to modify.	Complete	5
US1.2	User can open a floating prompt panel inside Premiere to type natural-language effect requests.	Partially complete	10

### Work Not Completed

- Frontend is not connected to the backend AI API so the chat is only the UI
  - May develop a tool for selecting clips instead of the native select tool in Premiere
- 

## 5. Work Completion Rate

**Sprint Duration:** 14 days

**Total User Stories in Sprint:** 2

**User Stories Completed:** 1.5

**Estimated Ideal Work Hours Completed:** 18

**Total Days in Sprint:** 14

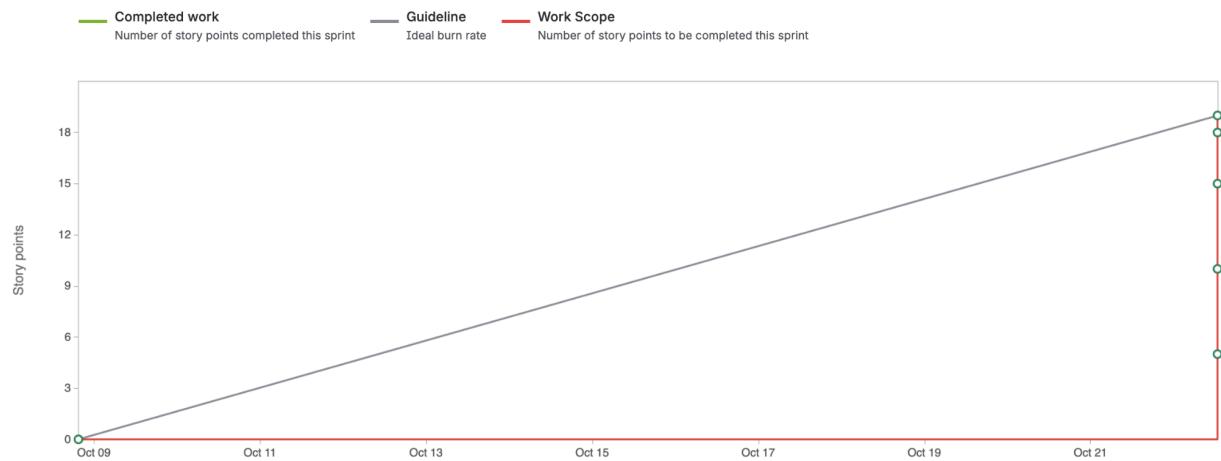

### Calculated Metrics:

- User Stories per Day =  $(2 / 14) = 0.14$
- Ideal Work Hours per Day =  $(18 / 14) = 1.29$

## Burnup Chart:

Date - October 8th, 2025 - October 21st, 2025

Sprint goal - Sprint Goal: Establish Premier scripting environment and core UI for clip section and prompt input

# Sprint 2

# Sprint 2 Report

**Product Name:** ChatCut

**Team Name:** ChatCut Devs

**Sprint Number:** 2

**Date:** 11/06/25

---

## 1. Actions to Stop Doing

**Q:** What things should we stop doing?

**A:**

- Team members not giving updates on whether they can attend meetings well in advance.
  - Camera's off during Scrum meetings
- 

## 2. Actions to Start Doing

**Q:** What should we start doing to improve our development process?

**A:**

- Team members should share their progress in their sprint more often.
  - Asking other team members for help when another team member is more familiar with a certain technology
- 

## 3. Actions to Keep Doing

**Q:** What is working well that we should continue to do?

**A:**

- The team should continue to work on assigned tasks and complete deliverables on schedule.
- 

## 4. Work Completed / Not Completed

### Work Completed

User Story ID	Description	Status	Story Points
US2.1	As a user, I want to describe how I want my video edited in plain English so that ChatCut can automatically perform the correct actions.	Complete	13
US2.2	As a user, I want to see values and components be added/changed after sending my edit request prompt	Complete	8
US2.3	As a user, I want ChatCut to recognize objects and elements in my video so that I can make edits that target specific items (like 'zoom on the person' or 'blur the logo').	Incomplete	8

### Work Not Completed

- Object recognition model is working but we have not found how to implement it into the Adobe API
- 

## 5. Work Completion Rate

**Sprint Duration:** 14 days

**Total User Stories in Sprint:** 3

**User Stories Completed:** 2

**Estimated Ideal Work Hours Completed:** 25

**Total Days in Sprint:** 14

## Calculated Metrics:

- User Stories per Day = 0.21
- Ideal Work Hours per Day = 1.80

## Burnup Chart:

Date - October 21st, 2025 - November 5th, 2025

# Sprint 3

# Sprint 3 Report

**Product Name:** ChatCut

**Team Name:** ChatCut Devs

**Sprint Number:** 3

**Date:** 11/18/25

---

## 1. Actions to Stop Doing

**Q:** What things should we stop doing?

**A:**

- Not rebasing from main constantly causing merge error
  - Holding meetings too late causing meetings tend to be a little ineffective
- 

## 2. Actions to Start Doing

**Q:** What should we start doing to improve our development process?

**A:**

- Finishing up major sprint tasks that have carried over or are taking a while
  - Be more communicative on what progress each individual has made on their sprint task throughout the sprint, not just the end
- 

## 3. Actions to Keep Doing

**Q:** What is working well that we should continue to do?

**A:**

- Asking questions on what can be improved and be changed
  - Filling out all our documents correctly and being communicative on what we need from each other
- 

## 4. Work Completed / Not Completed

### Work Completed

User Story ID	Description	Status	Story Points
US3.1	As a user, I want to undo changes made by the AI copilot, so that I can easily revert edits I don't like or didn't intend.	Complete	13
US3.2	As a user, I want to copy and paste text inside the chat box, so that I can edit prompts faster, reuse instructions, and fix mistakes without retyping everything.	Complete	8
US3.3	As a user, I want a history panel on the side of the chat box, so that I can quickly revisit previous messages, edit steps, and context without losing track of what I've done.	Incomplete	8

### Work Not Completed

- Object recognition model is working but we have not found how to implement it into the Adobe API
  - Undo button merges a bit improperly with main. Will have to sort out bugs
-

## 5. Work Completion Rate

**Sprint Duration:** 15 days

**Total User Stories in Sprint:** 3

**User Stories Completed:** 2

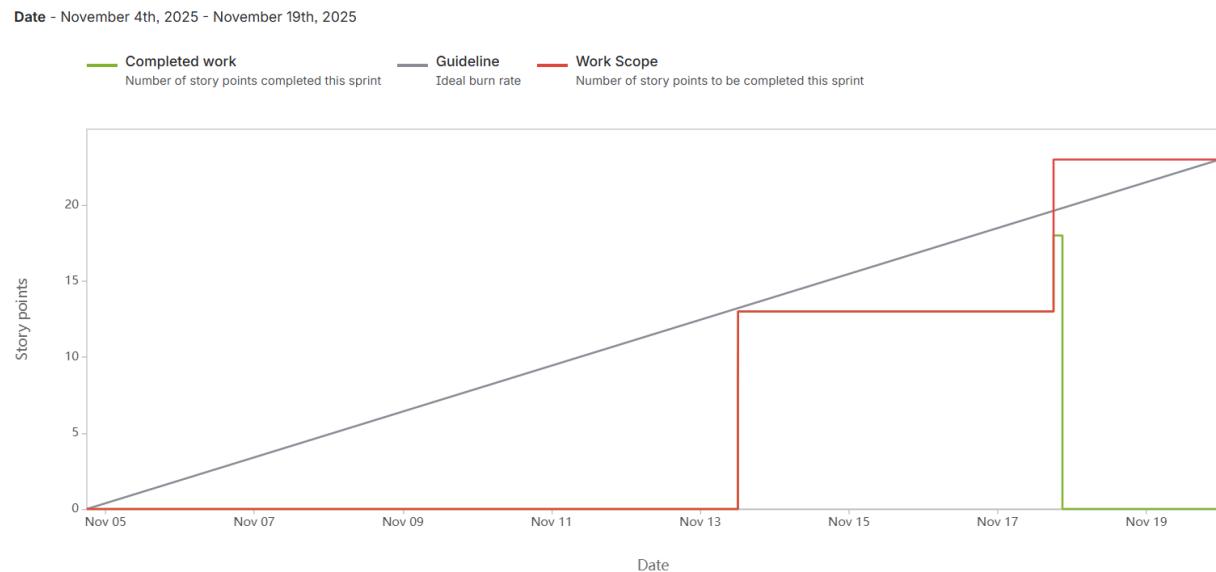

**Estimated Ideal Work Hours Completed:** 35

**Total Days in Sprint:** 15

**Calculated Metrics:**

- User Stories per Day = 0.13
- Ideal Work Hours per Day = 2.33

**Burnup Chart:**

# Sprint 4

# Sprint 4 Report

**Product Name:** ChatCut

**Team Name:** ChatCut Devs

**Sprint Number:** 4

**Date:** 12/2/25

---

## 1. Actions to Stop Doing

**Q:** What things should we stop doing?

**A:**

- Pushing code that is untested or hard to merge with main
  - Not communicating far in advance before missing a meeting
- 

## 2. Actions to Start Doing

**Q:** What should we start doing to improve our development process?

**A:**

- Looking at the class schedule and resources instead of asking team members questions that they should know
  - Updating scrum board right after completing a task
- 

## 3. Actions to Keep Doing

**Q:** What is working well that we should continue to do?

**A:**

- Completing work on time
- 

## 4. Work Completed / Not Completed

### Work Completed

User Story ID	Description	Status	Story Points
US3.1	As a video editor, I want audio effects to work reliably so I can enhance audio tracks	Complete	8
US3.2	As a video editor, I want to apply multiple prompts so I can layer edits easily.	Complete	8
US3.3	As a user, I want the updated UI so that editing actions feel intuitive and fast.	Complete	8
US3.4	As an editor, I want object tracking connected to the backend so tracked effects can be applied automatically	Complete	13

### Work Not Completed

- Did not add chat history
- 

## 5. Work Completion Rate

**Sprint Duration:** 15 days

**Total User Stories in Sprint:** 4

**User Stories Completed: 4**

**Estimated Ideal Work Hours Completed: 37**

**Total Days in Sprint: 15**

#### **Calculated Metrics:**

- User Stories per Day = 0.26
- Ideal Work Hours per Day = 2.47

#### **Burnup Chart:**

Date - November 18th, 2025 - December 2nd, 2025
